## ***Converting Machinery Highlights***

### **Slitter Rewinders**

➤ **One (1) used 120" (3048mm) Cameron Mdl 458 surface slitter rewinder. ([922144](#))**

Includes a Lenox shaftless self-loading unwind stand for 60" diameter rolls with a Fife guide, shear cut slitting with (3) sets of knives, 18" (457mm) diameter drums, shafted rewind o 72" (1829mm) maximum roll diameter. Includes hydraulic roll ejector and "J" table for roll lowering. The main drive is a Cleveland Machine Control with twin 30 HP motors (Digimaster 12 drives). Serial # P83555. Rated for 3000 FPM.

➤ **One (1) used 165" (4.19m) Langston Speedmaster Two Drum Slitter Rewinder ([892082.002](#))**

Shaftless unwind system with 97" OD roll capacity built by A & F in 2007. 3", 4", 5", 6" 10", 12" chucks. Dual 50 HP motors on unwind for handling light grades including tissue paper. Langston winder capable of handling 60" (1.5M) OD rolls. 3" and 6" pneumatic shafts. (2) 100 hp motors on main drums. Update Slitting system by Associated Machine Designed installed in 2000. Includes (10) Maria Cotta shear slitting system with Driven female shear knives. Dual bowed rolls. 10" Minimum slit width. Rated

6000 FPM (1829mpm). Tension range ½ to 2.5 PLI. Updated Rockwell DC drive system in 2000. Allen Bradley PLC with computer based operator interface. Unit in very good overall condition. Available due to complete plant closure in January 2013.

➤ **One (1) used 82" (2.08m) Cameron Mdl 14 Two Drum Slitter Rewinder ([902102](#))**

A&F shaftless backstand Water-cooled braking. 60" (1.52m) O.D. capacity. Skew adjustment. Tapered chucks. Shear slitting with (11) Tidland shear male assemblies. Bowed Roll. 3" (76mm) Pneumatic Tidland rewind shaft. Multi grooved female shear rings. 60" (1524mm) O.D. rewind capacity. Hydraulically loaded rider roll. Roll kicker. Single motor 50 HP DC motor 230 V. Cleveland motion control pacemaker 6 DC drive. Unit removed from service July 2013. Max speed 2700 FPM. Good overall condition. Video available. Unit has been cleaned and painted. Ready for shipment.

www.globalequip.com \* info@globalequip.com

➤ **One (1) used 40" (1.02m) wide Goebel Rapid D1 Slitter Rewinder** ([921935](#))

Single center driven rewind shaft. Maximum roll width is 40" (1000mm). Maximum rewind diameter is 40" (1000mm) on a 3" air shaft. Minimum slit width is .375" (9.5mm) Rated speed 1000m/min (3200 FPM). Designed to handle paper and board ranging from 7 - 350 g/m<sup>2</sup>. Machine serial number 8273. Manufactured in 1979. Integrated unwind stand with 3" air shaft and drum brake. Equipped with manually actuated shear slitters. With a Bortholomy & Company type RH-150 reel lifter for up to 2200 lb (1000 kg) rolls with 6" (150 mm) cores.

Unwind and rewind roll lift. Auto tension control. Updated controls. Unit is in very good working order

The Goebel Rapid series slitter rewinder can be used for a wide range of materials. Center driven and winding on single shaft as well as extremely short web travel between slitting and rewind section ensures optimum, flawless roll quality.

Applications: Tabulating cardboard, coated paper, uncoated paper, SD/inkjet/thermal paper, filter/tipping/cigarette paper, flexible laminates, technical papers, laminated & un-laminated foil, and others. Many spare shafts, including (4) 3" air shafts, and approximately (6) 6" shafts air shafts.

➤ **One (1) used 90" (2286m) Black Clawson Two Drum Slitter Rewinder** ([902111.001](#)) Powell shaftless floor pick up unwind for 72" (1829mm) OD rolls. Fife edge guide system. Montalvo automatic tension control. (5) Tidland Class II shear slitting assemblies. Min slit width 6". Shaftless rewind conversion and rebuild by Black Clawson in 1997. 60" (1500mm) OD rewind capacity. Roll kicker and roll lowerator table. Operators control Panel. Footage counter Eurotherm DC two motor drive system. Reliance motors. Quickdraft Mdl. MHB22-25 HP blower, S/N IE-13-MHB. Rated at 3000 FPM. Good overall condition.

### Sheeters

➤ **One (1) used 65" Maxson Mdl MDH Dual Rotary Knife Sheeter** ([892148.005](#)) New 2007. (3) Roll unwind consisting of (1) Dual Maxson shaftless unwind and (1) single shaftless unwind. Unwind roll diameter 72". Includes 3", 6" straight chucks, 8" - 12" tapered chucks. Decurling station. Sheet length 15" - 65" (381mm-1651mm). Accuracy +/- 0.010". Compact machine footprint. Airfoil overlap and layboy. Rated speed 1000+ FPM. Maximum knife loading 800 pounds/3300 sq. ft. (1000GSM). Complete knife change in under 2 hours.

Can run 60 # text to heavy weight board. (No trim removal system). Unit can be seen in operation. Excellent overall condition. Original Maxson installation.

➤ **One (1) used 110" (2800mm) Ausquip JM Two Drum Slitter Rewinder.** ([892148.001](#)) Mfg. 2000. Shaftless floor pick up unwind capable of 72" OD roll capacity. Montalvo brakes with auto tension control. Auto edge guide. Mario Cotta shear slitting system with (7) male knives and fully-loaded female knife shaft. Dual bowed rolls. Shaftless rewind capable of 60" OD control technique drive control system. Main drums are 20" O.D. Dual 75 HP AC main motors. Roll lowerator table. Rated 6000 FPM. Present owners run 30 # to 18 point board.

Currently in operation. Original installation.

➤ **One (1) used 57" (1.45m) Maxson Rotary Knife Sheeter Cutting Section** ([901962.001](#))

Type MSS Fixed Bed. Equipped with a 6" (152.4mm) diameter cutting head and a provision for slitting via a pneumatically actuated dovetail bar. Cut off range is 9"-30" (228 - 762mm). Driven by a 15 HP, 3/60/230-460 volt, 1750 RPM main drive motor and equipped with (2) Baldor Vector drives and a Motion Max 1 integrated motion controller and 2 KVA drive cabinet mounted transformer. Looks to be in excellent condition. Serial number 5981M.

www.globalequip.com \* info@globalequip.com

➤ **One (1) used Clark Aiken 56" (1.42m) Wide Fixed Bed, Rotary Knife Sheeter** ([901927](#)) Serial number DL01090. Was previously running at 600 FPM. Capable of running fine papers through 24pt board.

Sheeter is equipped with a 4-position, shafted unwind stand with 3" air shafts and pneumatics disc brakes, a 56" wide, 4-roll decurler with Nexgen fully automatic tension control system, a Simco static eliminator,

18" OD cutting head, chrome plated draw drum, dual in-feed pull roll decurler, high and low speed tape sections, 72" high chain piler, 3-ton hoist and gantry loading package, and a 20 HP, 480 volt motor with an updated AC Variable frequency drive package.

***This sheeter appears to be very clean and well maintained. Available due to complete plant closure.***

➤ **One (1) used 60" (1.52m) Moore & White Mdl R-75 Fixed Bed Rotary Knife Sheeter** [921938](#)

Equipped with a pressurized decurler, (3) manually actuated shear slitter, a 2-motor drive, overlapper, piler, 72" OD shaftless, floor pick-up backstand with approximately 12" tapered chucks and dual approximate 24" diameter pneumatic disc brakes, a 5 HP trim blower, approximate 6' high layboy (piler) with jogging paddles. Capable of running up to approximately 750 FPM with a cut-off ranging from 18" - 72". Serial number 3M5439.

This is a versatile sheeter capable of handling many different varieties of paper board in single or multiple webs, up to a basis weight of 450 # and has a Unico drive with S.E.W. Movitrac frequency inverter, operators console, and (2) approximate 35 HP DC motors.

➤ **One (1) used 60" (1524mm) Rosenthal Sheeter Mdl WAS-5-HVBSTRVAAA** ([902108.002](#)) Serial No. 7450. Blade good for ½" (13mm) material, unwind stand and tension brake for 500lb material.

+/- 1/32" accuracy.

### **Unwind Stands**

➤ **One (1) used 98" (2490mm) Martin Shaftless Unwind Stand**

([922170.001](#)) (6) avail.

S/N RS 915, Floor Pickup, 4" (101mm) Double EE Chucks, with Double EE, RE Combi Flex Brakes, 10" Rotors, 6-Pucks, Fan-Cooled, 3/60/440V, Size: RHR 96 1 69.

➤ **106" PCMC Driven Unwind Stand 100" Roll Diameter**

([902128.002UW](#))

Used 106" PCMC Belt driven unwind stand for tissue and towel product. Maximum roll diameter up to approximatley 100".

➤ **One (1) used 97" (2460mm) S & S Shaftless Type Mre, Floor Pick-Up Unwind Stand**

([921924.001](#))

Capable of holding up to a 60" OD roll. Equipped with 4" chucks. Serial Number 20137. Right hand looking from controls. 3HP, 230/460 volt motor. Also equipped with approx. 9" Interfic dual pneumatic disc brakes and angular adjustment capability for handling tapered rolls. **(3) In Stock**

➤ **One (1) used 96" (2438mm) Egan Turret Shaftless Unwind Stand ([902111.002](#))**

60" (1524mm) O.D. capacity. The turret cross shaft in indexed through a large bull gear and pinion gear driven by a motorized worm gear reducer. Turret arms are moveable through a lead screw. Pneumatic brakes. Includes Superior MPM Technologies Auto-Splice system. Includes 10,000# roll lift table. Documentation as available.

www.globalequip.com \* info@globalequip.com

➤ **One (1) used 96" (2438mm) Egan Turret Shaftless Unwind Stand** ([902111.003](#))

72" (1828mm) O.D. capacity. The turret cross shaft is indexed through a large bull gear and pinion gear driven by a motorized worm gear reducer. Turret arms are moveable through a lead screw. Pneumatic brakes. Includes Superior MPM Technologies Auto-Splice system. 10,000# roll lift table. Documentation as available.

➤ **One (1) Used Jagenberg 4-Position Shaftless Unwind Stand** ([901835.003](#)) - **5 Available** Capable of holding rolls from approximately 50" - 100" wide. Equipped with 3" and 5" chucks and pneumatic drum brakes. Each position is individually controlled via pneumatic loading.

The side frames can be either mounted on the original the floor or on rails to facilitate various size rolls. This is a heavy duty backstand last used with a sheeter at a major paper converter and was idled due to market conditions. Originally supplied on a base that facilitates width adjustment via electric gear motor for rolls up to 65" wide. Rolls can be loaded via lift table or overhead hoist system.

➤ **One (1) used 104" (2.64m) Bretting 2-Position Hydraulic Self-Chucking Core Ejecting Unwind Stand** ([922068.013](#))

Capable of handling 72" (1.83m) diameter rolls. Power Assist unwind. New 2005. S/N 5850-05. Operation & Parts Manuals. Last used behind high speed tissue rewinding line. Excellent overall condition.

### **Miscellaneous**

➤ **One (1) Used 80" (1.93m) Black Clawson Converting Mach. Flotation Dryer** [902120.001](#)

Mdl 13015250, Natural Gas fired burner heating system. 2.5 Million BTU/hr. 450 Degree temperature max. Maxson Oven Pak II Mdl. 400 gas burner, Size 425P, Air distribution headers and flotation nozzles located within dryer enclosure. Air flow monitor and controls. Dryer length 11'. Motorized screw jack retraction system. NY Blower, Size 243 -ACF with Reliance motor, NY Blower Size 30-ACF with Reliance 50HP motor, and 5 hp exhaust fan. New: 10/2/98

➤ **One (1) Used Roll Wrapper Voith Twister Spiral Wrapper Mfg 2000, 65 Rolls HR** [892046.145](#)

VOITH TWISTER automatic roll wrap system rated up to 120 rolls/ hr. MFG. 2000. Type 2 Center. Based on the principal of Spiral wrapping. Completely automatic layout and used for the highest production requirements.

See also: <http://www.tappi.org/Downloads/unordered/UNTITLED---eng01106-pdf.aspx>

Rated 65 rolls/hour

Voith Roll Wrapping System, Consisting of:

180° Turntable • Tilttable Mould • Roll Cushion • Roll Lowerator • Roll Cushion • Slat Conveyor, with Scanner • Turntable, with Slat Conveyor • Slat Conveyor, with Scale & System to Measure • Dia. & Length • Turntable, with Slat Conveyor • Draw Roll Units • Wrapping Paper Unwind & Guide Systems • Gluing Devices • Unwind Positioning • Wrapping Station, with Ejector • Crimping Station • Roll with Tilttable Mould • Tilttable Mould • Roll Bumper • Roll Upender with Roll Turning Device • Storage Conveyor

➤ **One (1) used 20" (508mm) Wide WTI Inspection Machine** ([902127.003](#))

Model 40/20/2000. Serial Number 1678. New in 1998. Web width 20" (508mm) maximum to 6" (152mm) minimum. Roll O.D. 40" (1016mm). Core I.D. 3"; 5"; or 6" (76mm; 127mm; 152mm). Speed range 0 - 2000 fpm (610mpm). Can handle web stack from 10 lb (4.5Kg) bond to 110 lb. (50 Kg) tag paper.

**Global Equipment and Machinery Sales, Inc.**

Tel: +1-215-674-3500 \* Fax: +1-215-674-3340  
www.globalequip.com \* info@globalequip.com

➤ **One (1) used 120" (3048mm) Core Systems Shark Semi-Automatic Core Cutter ([902074](#))**

10" (254mm) ID Shaft. Other sizes available. Equipped with 3 HP AC 3/60/480 volt motor. Pneumatically actuated knife holder mounted on cross slide, cut core length accuracy +/- 0.015". Cutting speed 70 - 80 cuts per minute at 1 - 1 ½" core length. S/N 00831160. Unit in Good operating condition

➤ **One (1) used 56" (1.42m) Wide Webex Laminator Line ([901766.002](#))**

Serial Number WX9301. Consists of a 40" OD capacity unwind stand with tension control with Mag Power Model DDC and a 12" diameter Montalvo brake. Second unwind stand has a 21" OD capacity and a driven idler roll, and 12" diameter Montalvo brake. Both unwind stands have dancer rolls. The laminator consists of an 8" diameter x 60" wide steel roll driven by a 3 HP DC and a 6" diameter x 60" wide rubber roll. (2) Pneumatic cylinders push the bottom roll up against the top roll. Single position 30" diameter rewind stand driven by a 15 HP DC motor. With dancer roll and 3" diameter air shaft.

Originally manufactured in 1993. This line is very clean and in good operating condition. Full documentation is available. Capable of laminating paper, film and vinyl. The unwinds, laminator and rewind are each controlled by individual Dynamax Flux Vector drive.

➤ **One (1) used 84" (2.14m) Voith Roll Splitter Hydraulic Operation ([902103.001](#))**

Capable of 60" (1.52M) Diam. rolls. Manufactured 1993. Includes infeed and outfeed belt conveyor. Automatic operation. This is a complete system for splitting rolls and placing into pulper. Available due to complete mill shutdown. Good operating condition.

➤ **One (1) used Sollas Overwrapper Mdl S20 Built In 2007 ([902098.001](#))**

S/N 1000628. Overwrapper is used with plastic film substrates. Capable of running many different sizes. Machine last ran film wrap for 8.5" x 11" cut size product various counts. Infeed conveyor. Tear-Tape applicator for easy opening of product. Cut to register system for printed wrap. Servo driven. Serial number 1000628. Includes Sollas operation manual. See video of Sollar S 20 in operation.

➤ **One (1) used 80" (2.03 M) 4-Color Gec Flexo Graphic Printing Press** ([902018.002](#)) Currently has 64" wide plate cylinders mounted. Previously used in line with paper bag machine making leaf bag.

➤ **One used 60" (1.52m) Coretech Mdl CM 10 Core Cutter** ([902091](#))

Automatic operation. Various size core chucks. Can be increased to 90" or 120" (2286mm or 3048mm). Mfg. 1997. Good operating condition. S/N 11471

General Catalog Specifications:

Internal Diameter Capability: 1" - 12" (25mm - 305mm) Maximum Wall Thickness: .625" (16mm)

Minimum Cut Core Width: .250" (6.35mm) Cut Core Width Tolerance: .010" (0.25mm)

EQUIPPED WITH:

Five-minute Core Size Conversion Process

One-Minute Core Width Change Clean, Square Burr-free Cuts Built-in Reference Scale

Micrometer End Stop Adjustment

KB Penta Power Multi-Drive DC Motor Speed Control
